WISE WOMEN MANAGING MONEY

wisewomenmanagingmoney.com

Most women, at some time in their life, will manage their finances. Women in the United States control 51% of the wealth and direct most discretionary spending. Whether ready or not, prepared or unexpected, this is what we do.

We are a duo, mom (vintage) and daughter (JD and CFP), who know women want to do this well.

Financial know-how—practical.

Financial freedom—priceless.

Let's do this together!
